WOOD DOOR CONSTRUCTION

TruStile Wood

Stile & Rail Doors

Made in the authentic stile and rail manner, TruStile Wood Doors use a premium mix of materials that exceed industry standards for a truly natural look.

TruStile Reserve® Wood

Stile & Rail Doors

Designed to the highest level of quality, TruStile Reserve Wood Doors are the ultimate expression of luxury for today's interiors. Each door is constructed using the latest technological advances combined with meticulous handcrafted detail.

TruStile Reserve® Wood

Flush Doors

TruStile has developed the first high-end flush doors designed specifically for the residential market. Our highly engineered core provides stability for the door while a matching hardwood continuous edge on all four sides provides a beautiful finish.

TruStile Wood: Stile & Rail Construction

- Made to order and built to almost any size or style, using genuine stile and rail construction, industry-leading veneers and quality lumber.
- HDF-faced laminated strand lumber (LSL) cores and doweled assembly offer exceptional strength, durability, and maximum stability.
- Solid wood, edge-glued panels. When factory finished, panels are pre-stained on edges prior to assembly.
- A floating panel system uses flexible cushions to secure panels in place — preventing shifting and rattles, while allowing for expansion from environmental changes.
- Cope and stick joinery ensure precise corner detail.

TruStile Reserve® Wood: Stile & Rail Construction

- Made to order and built to almost any size or style, using genuine stile and rail construction, industry-leading veneers and quality lumber.
- HDF-faced laminated strand lumber and doweled stile and rail assembly offer exceptional strength, durability and maximum stability.
- Upgraded panels are engineered with a composite wood core for strength and stability with solid wood faces that are hand-matched, creating superior, architecturally-correct details.
- Cope and stick joinery ensure precise corner detail.

TruStile Reserve® Wood: Flush Construction

- Made to order in sizes up to 4′ × 10′.
- Hand-matched 1⁄16″ thick veneers are available in both horizontal- and vertical-grain patterns. On pairs of doors, grain pattern is continuous across the faces of both door.
- A highly engineered core provides stability for the door while matching hardwood on all edges provides a beautiful finish.
- Sketch face designs available.
